

problem of youth gangs. At the Federal level, we are leading the fight to stop drugs from entering the country and expand drug treatment efforts, and we are stepping up our efforts to secure the border against illegal immigration while we help to defray State costs for such immigration.

For many families, of course, the first challenge often is just to pay the bills. My budget proposes tax relief for middle-income Americans and small businesses. It provides an income tax credit for each dependent child under 13; a deduction for college tuition and fees; and expanded individual retirement accounts to help families save for future needs and more easily pay for college, buy a first home, pay the bills during times of unemployment, or pay medical or nursing home costs. For small business, it offers more tax benefits to invest, provides estate tax relief, and makes it easier to set up pensions for employees. It also would expand the tax deduction to make health insurance for the self-employed more affordable.

#### MAKING GOVERNMENT WORK

As we pursue these priorities, we will do so with a Government that is leaner, but not meaner, one that works efficiently, manages resources wisely, focuses on results rather than merely spending money, and provides better service to the American people. Through the National Performance Review, led by Vice President GORE, we are making real progress in creating a Government that "works better and costs less."

We have cut the size of the Federal workforce by over 200,000 people, creating the smallest Federal workforce in 30 years, and the smallest as a share of the total workforce since before the New Deal. We are ahead of schedule to cut the workforce by 272,900 positions, as required by the 1994 Federal Workforce Restructuring Act that I signed into law.

Just as important, the Government is working better. Agencies such as the Social Security Administration, the Customs Service, and the Veterans Affairs Department are providing much better service to their customers. Across the Government, agencies are using information technology to deliver services more efficiently to more people.

We are continuing to reduce the burden of Federal regulation, ensuring that our rules serve a purpose and do not unduly burden businesses or taxpayers. We are eliminating 16,000 pages of regulations across Government, and agencies are improving their rule-making processes.

In addition, we continue to overhaul Federal procurement so that the Government can buy better products at cheaper prices from the private sector. No longer does the Government pay outrageous prices for hammers, ashtrays, and other small items that it can buy cheaper at local stores.

As we look ahead, we plan to work more closely with States and local-

ities, with businesses and individuals, and with Federal workers to focus our efforts on improving services for the American people. Under the Vice President's leadership, agencies are setting higher and higher standards for delivering faster and better service.

#### CONCLUSION

Our agenda is working. We have significantly reduced the deficit, strengthened the economy, invested in our future, and cut the size of Government while making it work better for the American people.

Now, we have an opportunity to build on our success by balancing the budget the right way. It is an opportunity we should not miss.

WILLIAM J. CLINTON.
